

7. CONCLUSION AND FUTURE SCOPE

The Stranger Things game is developed by keeping all the game lovers out there in mind. It is so beginner friendly that a user with bare minimum experience in the field of gaming can play the game. The storyline, background sounds, vivid animations, all of the game keeps the user engaged throughout. The game is developed for full-time entertainment and enthusiasm. Continuous challenges and various rewards keep the user's spirit and interest on; keeping them hooked to the game.

In further stages of the game, more features like new characters, mini map, new weapons, etc can be implemented. Moreover, online multiplayer features can also be implemented through further updates.
